TigerPLY™

To Whom It May Concern,

I confirm that Shelter Forest International operates four manufacturing groups dedicated to the production of the TigerPLY brand of plywood. All aspects of panel design, engineering, production quality control, and logistics for this brand are centrally managed from their corporate office in Portland, Oregon, USA. The company produces its plywood adhering to the HP-1 standards and coordinates with overseas support offices to ensure consistent product quality and logistics.

If you require further information regarding Shelter Forest International's operations or the TigerPLY brand, please feel free to contact me.

Regards,

Ryan Loe
